California Seed Association

2017 Student Seed Tour - Davis/Woodland

September 20, 2017

Come join the fun and learn about the seed industry and discover possible career opportunities in this dynamic part of California agriculture and horticulture. The tour will focus on key aspects of the industry such as:

Seed Production and Processing, Sales and Marketing

Mark your calendars for this year's tour scheduled for **September 20th**. Seed industry professionals will lead the tour, and students will be given opportunities to meet "seed people" and become familiar with their companies.

The seed industry is an interesting and dynamic part of the agricultural and horticultural community. So, if you are interested in knowing how field and vegetable seed is developed, produced and brought to market, you won't want to miss the 2017 CSA Seed Tour.

Our goal is to help you learn about the mechanics of the seed industry and possible career opportunities by:

- * *Gaining a hands-on experience and understanding the seed industry's role in agriculture and horticulture,*
- * *Learning more about traditional plant breeding, biotechnology and the value-added benefits of seed development,*
- * *Having contact with industry representatives and learning about possible internship/career opportunities.*

Be sure to save the date for this year's Seed Tour that will be held in the Davis/Woodland area. As in previous tours, we will begin with a social gathering the night before with students and industry representatives at a Davis restaurant. We will spend all day Wednesday touring facilities and research fields as well as a hosted luncheon.

Planned Stops At:

Sakata Seed America
Monsanto
HM Clause
Nuseed
Alforex Seeds

There are a limited number of spaces available, so please contact Donna Boggs of the California Seed Association at 916-441-2251 or donna@agamsi.com to find out more details about this year's tour and to reserve your spot. We expect between 32-38 students on the tour from various colleges.
